

# P541

## PIED D'APPUI EN ACIER INTÉGRAL AVEC TIGE ARTICULÉE DE TYPE A, BILLE 15 ET BASE ANTIDÉRAPANTE

### Matériaux :

**P541 :**

Base du pied en acier de décolletage passé au tour.

**P541CIN :**

Base du pied en acier inox (Aisi 303) passé au tour.

### Surface :

Lisse.

### Couleur :

Zingage bleu standard.

**P541 :**

Zingage bleu standard.

**P541CIN :**

Naturelle.

### Inserts :

**P541 :**

Tige filetée et articulée (bille 15) avec base hexagonale en acier zingué (tolérance filetage 6g).

**P541CIN :**

Tige filetée et articulée (bille 15) avec base hexagonale en acier inox (Aisi 303) (tolérance filetage 6g).

### Fixation tige :

Tige non démontable. La sphère ne peut pas être retirée car le bord du logement a été pressé.

### Base antidérapante :

Base antidérapante en caoutchouc thermoplastique SBS 75 Shore, couleur noir RAL 9011.

Résistante aux huiles et aux graisses. Montée par pression.

### Demandes spéciales :

- Sur demande et pour des quantités importantes, les inserts peuvent être fournis avec longueurs sur demande.

Version P541 : Pied d'appui en acier zingué, tige de type A (avec hexagone), bille 15 et base antidérapante en SBS
