

GROUP - 04

CONTROL HANDWHEELS

BOTECO Control Handwheels

From tapered handwheels to control handwheels for compatible cabinets, Boteco offers various solutions for specific applications. Simply download the detailed technical sheets for further information on the control elements that we design and manufacture: plastic and metal spoke handwheels and three-arm handwheels that ensure a high level of reliability. For these products we can offer customized holes and additional re-machining, such as side holes and pinning holes.

D161

TAPERED HANDWHEEL WITH INSERT AND SMOOTH BORE OR THREADED HOLE

Materials:

Reinforced polyamide. Resistant to oils and greases.

Surface finish:

Satin.

Colour:

Black (RAL 9011).

Main insert:

Version TD:

Galvanised steel insert with blind smooth bore (tolerance H10).

Version TM:

Galvanised steel insert with female threaded hole (tolerance 6H).

Special requests:

- Upon request and for special quantities inserts can be supplied with custom hole diameter d1.
- Upon request and for special quantities inserts can be supplied in different materials or finishes.

Fixing method:

For fixing systems, or execution of keyways or square holes, please refer to the technical notes attached to the catalogue [page].

Version TD with blind smooth bore.

Code	Art.	D	H	d	c	m	d2	d3	d4	h2	h3	Dm	d1 _{H10}	Q	g
D16195.0006	D16195.TD0801	93	56.5	40	36.5	20	32	45	55.5	20	17	22	8	27	340

Attention: For a minimum of 50 pieces the diameter d1 can be customised (hole tolerance H10 galvanised and H7 black-oxide treated).
Dm = Maximum obtainable diameter for subsequent machining (widening).

Version TM with female threaded hole.

Code	Art.	D	H	d	c	m	d2	d3	d4	h2	h3	d1 _{6H}	Q	g

Attention: for a minimum of 50 pieces the diameter d1 can be produced with the requested dimensions (tolerance 6H).

D205

TWO-SPOKE CONTROL HANDWHEEL

Materials:

Reinforced and stabilized polyamide.
Resistant to oils and greases.

Surface finish:

Satin.

Colour:

Black (RAL 9011).

Central cap:

Grey polyamide (RAL 7035). 13).

Alternative cap colours:

Orange (RAL 2004 code 02).
Blue (RAL 5015 code 07).
Yellow (RAL 1021 code 10).
Red (RAL 3000 code 16).
Green (RAL 6024 code 17).
Black (RAL 9011 code 01).

Main insert:

Galvanised steel insert with smooth through bore
(tolerance H10).

Hub:

Solid Hub.

(*) Lightweight hub.

Fixing method:

For fixing systems, or execution of keyways or square holes, please refer to the technical notes attached to the catalogue [page].

Special requests:

- On request and with a minimum of 50 pieces, the inserts can be supplied with the hole d1 with H7 tolerance and black-oxide finish.
- Upon request and for special quantities inserts can be supplied with custom hole diameter d1.
- Upon request and for special quantities inserts can be supplied in different materials/with different coatings.
- Upon request and for special quantities the spoke handwheels are available in the colours indicated in the chart (reduced range) [page].

D206

TWO-SPOKE CONTROL HANDWHEEL WITH REVOLVING HANDLE

Materials:

Reinforced and stabilized polyamide. Resistant to oils and greases.

Surface finish:

Satin.

Colour:

Black (RAL 9011).

Central cap:

Grey polyamide (RAL 7035). 13).

Alternative cap colours:

Orange (RAL 2004 code 02).
Blue (RAL 5015 code 07).
Yellow (RAL 1021 code 10).
Red (RAL 3000 code 16).
Green (RAL 6024 code 17).
Black (RAL 9011 code 01).

Main insert:

Galvanised steel insert with smooth through bore (tolerance H10).

Lateral insert:

Brass insert with threaded through hole.

Lateral handle:

D206: Revolving handle art. M144 (page).
D209: Revolving handle art. M145 (page).
D210: Revolving handle art. M129 (page).
D211: Revolving handle art. M202 (page).

Hub:

Solid Hub.

(*) Lightweight hub.

Fixing method:

For fixing systems, or execution of keyways or square holes, please refer to the technical notes attached to the catalogue [page].

Special requests:

- Upon request and for a minimum of 50 pieces inserts can be supplied with hole d1 with tolerance H7 and black oxide treated finish.
- Upon request and for special quantities inserts can be supplied with custom hole diameter d1.
- Upon request and for special quantities inserts can be supplied in different materials/with different coatings.
- Upon request and for special quantities spoke handwheels, handles and caps are available in the colours indicated in the chart (reduced range) [page].

D207

TWO-SPOKE CONTROL HANDWHEEL WITH REVOLVING FOLDAWAY HANDLE

Materials:

Reinforced and stabilized polyamide. Resistant to oils and greases.

Surface finish:

Satin.

Colour:

Black (RAL 9011).

Central cap:

Grey polyamide (RAL 7035). 13).

Alternative cap colours:

Orange (RAL 2004 code 02).
Blue (RAL 5015 code 07).
Yellow (RAL 1021 code 10).
Red (RAL 3000 code 16).
Green (RAL 6024 code 17).
Black (RAL 9011 code 01).

Main insert:

Galvanised steel insert with smooth through bore (tolerance H10).

Lateral handle:

Flush, foldaway revolving handle, with hexagonal connection. Reinforced polyamide handle. Black-oxide treated internal mechanism. Fixed with black-oxide treated hexagon socket button head screw ISO 7838.

Hub:

Solid Hub.

Fixing method:

For fixing systems, or execution of keyways or square holes, please refer to the technical notes attached to the catalogue [page].

Special requests:

- On request and with a minimum of 50 pieces, the inserts can be supplied with the hole d1 with H7 tolerance and black-oxide finish.
- Upon request and for special quantities inserts can be supplied with custom hole diameter d1.
- Upon request and for special quantities inserts can be supplied in different materials/with different coatings.
- Upon request and for special quantities spoke handwheels, handles and caps are available in the colours indicated in the chart (reduced range) [page].

D208

TWO-SPOKE CONTROL HANDWHEEL WITH REVOLVING FOLDING HANDLE

Materials:

Reinforced and stabilized polyamide. Resistant to oils and greases.

Surface finish:

Satin.

Colour:

Black (RAL 9011).

Central cap:

Grey polyamide (RAL 7035). 13).

Alternative cap colours:

Orange (RAL 2004 code 02).
Blue (RAL 5015 code 07).
Yellow (RAL 1021 code 10).
Red (RAL 3000 code 16).
Green (RAL 6024 code 17).
Black (RAL 9011 code 01).

Main insert:

Galvanised steel insert with smooth through bore (tolerance H10).

Lateral insert:

Brass insert with threaded through hole.

(+) Hexagonal black-oxide treated steel insert with threaded through hole.
Fixed with black-oxide treated hexagon socket button head screw ISO 7838.

Lateral handle:

Revolving, folding handle art. M136 [page].

Hub:

Solid Hub.

(*) Lightweight hub.

Fixing method:

For fixing systems, or execution of keyways or square holes, please refer to the technical notes attached to the catalogue [page].

Special requests:

- On request and with a minimum of 50 pieces, the inserts can be supplied with the hole d1 with H7 tolerance and black-oxide finish.
- Upon request and for special quantities inserts can be supplied with custom hole diameter d1.
- Upon request and for special quantities inserts can be supplied in different materials/with different coatings.
- Upon request and for special quantities spoke handwheels, handles and caps are available in the colours indicated in the chart (reduced range) [page].

D206

TWO-SPOKE CONTROL HANDWHEEL WITH REVOLVING HANDLE

Materials:

Reinforced and stabilized polyamide. Resistant to oils and greases.

Surface finish:

Satin.

Colour:

Black (RAL 9011).

Central cap:

Grey polyamide (RAL 7035). 13).

Alternative cap colours:

Orange (RAL 2004 code 02).
Blue (RAL 5015 code 07).
Yellow (RAL 1021 code 10).
Red (RAL 3000 code 16).
Green (RAL 6024 code 17).
Black (RAL 9011 code 01).

Main insert:

Galvanised steel insert with smooth through bore (tolerance H10).

Lateral insert:

Brass insert with threaded through hole.

Lateral handle:

D206: Revolving handle art. M144 (page).
D209: Revolving handle art. M145 (page).
D210: Revolving handle art. M129 (page).
D211: Revolving handle art. M202 (page).

Hub:

Solid Hub.

(*) Lightweight hub.

Fixing method:

For fixing systems, or execution of keyways or square holes, please refer to the technical notes attached to the catalogue [page].

Special requests:

- Upon request and for a minimum of 50 pieces inserts can be supplied with hole d1 with tolerance H7 and black oxide treated finish.
- Upon request and for special quantities inserts can be supplied with custom hole diameter d1.
- Upon request and for special quantities inserts can be supplied in different materials/with different coatings.
- Upon request and for special quantities spoke handwheels, handles and caps are available in the colours indicated in the chart (reduced range) [page].

D206

TWO-SPOKE CONTROL HANDWHEEL WITH REVOLVING HANDLE

Materials:

Reinforced and stabilized polyamide. Resistant to oils and greases.

Surface finish:

Satin.

Colour:

Black (RAL 9011).

Central cap:

Grey polyamide (RAL 7035). 13).

Alternative cap colours:

Orange (RAL 2004 code 02).
Blue (RAL 5015 code 07).
Yellow (RAL 1021 code 10).
Red (RAL 3000 code 16).
Green (RAL 6024 code 17).
Black (RAL 9011 code 01).

Main insert:

Galvanised steel insert with smooth through bore (tolerance H10).

Lateral insert:

Brass insert with threaded through hole.

Lateral handle:

D206: Revolving handle art. M144 (page).
D209: Revolving handle art. M145 (page).
D210: Revolving handle art. M129 (page).
D211: Revolving handle art. M202 (page).

Hub:

Solid Hub.

(*) Lightweight hub.

Fixing method:

For fixing systems, or execution of keyways or square holes, please refer to the technical notes attached to the catalogue [page].

Special requests:

- Upon request and for a minimum of 50 pieces inserts can be supplied with hole d1 with tolerance H7 and black oxide treated finish.
- Upon request and for special quantities inserts can be supplied with custom hole diameter d1.
- Upon request and for special quantities inserts can be supplied in different materials/with different coatings.
- Upon request and for special quantities spoke handwheels, handles and caps are available in the colours indicated in the chart (reduced range) [page].

D214

THREE-ARM CONTROL HANDWHEEL WITH SMOOTH OR THREADED HOLE

Materials:

Reinforced and stabilized polyamide.
Resistant to oils and greases.

Surface finish:

Satin.

Colour:

Black (RAL 9011).

Central cap:

Grey polyamide (RAL 7035). 13).

Alternative cap colours:

Orange (RAL 2004 code 02).
Blue (RAL 5015 code 07).
Yellow (RAL 1021 code 10).
Red (RAL 3000 code 16).
Green (RAL 6024 code 17).
Black (RAL 9011 code 01).

Main insert:

Version PON:

Brass insert with threaded through hole (thread tolerance 6H).

Version TM:

Galvanised steel insert with threaded through hole (thread tolerance 6H).

Version TD:

Galvanised steel insert with smooth through bore (tolerance H10).

Fixing method:

For fixing systems, or execution of keyways or square holes, please refer to the technical notes attached to the catalogue [page].

Special requests:

- On request and with a minimum of 50 pieces, the inserts can be supplied with the hole d1 with H7 tolerance and black-oxide finish.
- Upon request and for special quantities inserts can be supplied with custom hole diameter d1.
- Upon request and for special quantities the handwheel can be supplied in Orange (RAL 2004 Code 02).
- Upon request and for special quantities inserts can be supplied in different materials/with different coatings.

Version PON with brass insert with threaded through hole.

D601

TWO-SPOKE HANDWHEEL WITH FOLDAWAY HANDLE AND LOCKING PISTON

This product type is a variation of our traditional handwheel D207-350. By simply adding a special assembly kit this product adapts to the requirements of a particular market: the mobile shelving market (mobile storage cabinets mounted on a trackway). This handwheel is used to move the shelving along the trackway. A fitted lock or locking piston serves to lock, stop, position the shelving units in certain positions.

Black (RAL 9011 code 01).

Locking piston kit:

(1) PA6+GF hole cover ring. Colour Black (RAL 9011). Push-fit assembly. Removable.
(2) PA6+GF piston holder. Colour Black (RAL 9011). Assembly with two self-tapping, galvanised steel screws, screwdriver head 3.5x30.
(3) PA6+GF gear stick d. 26 with positioning brackets. Colour Black (RAL 9011). With M04 brass female threaded insert.
(5) PA6+GF gear stick support with positioner. Colour Black (RAL 9011).
(6) Galvanised steel return spring.
(7) Galvanised steel washer.
(8) Galvanised steel locking piston. Seat for Allen wrench no. 5 for fastening. Piston stroke 10 mm. Useful projection from handwheel 8 mm.

Inserts:

Galvanised steel insert with smooth through bore (tolerance H10). (Includes 6 mm keyway).
(4) Black-oxide treated hexagon socket button head screw ISO 7838 for fastening handle.

Lateral handle:

Flush, foldaway revolving handle in handwheel M202 "Euromodel", with hexagonal connection. PA6+GF handle, black RAL 9011. Black-oxide treated internal mechanism. Fixed with black-oxide treated hexagon socket button head screw ISO 7838. Handle cap in grey polyamide (RAL 7035 code 13).

Fixing method:

For fixing systems, or execution of keyways or square holes, please refer to the technical notes attached to the catalogue [page].

Special requests:

- On request and with a minimum of 50 pieces, the inserts can be supplied with the hole d1 with H7 tolerance and black-oxide finish.
- Upon request and for special quantities inserts can be supplied with custom hole diameter d1.
- Upon request and for special quantities inserts can be supplied in different materials/with different coatings.
- Upon request and for special quantities available in the colours indicated in the chart [page].

(1) PA6+GF hole cover ring. Colour Black (RAL 9011). Push-fit assembly. Removable.
(2) PA6+GF piston holder. Colour Black (RAL 9011). Assembly with two self-tapping, galvanised steel screws, screwdriver head 3.5x30.
(3) Nickel plated lock. Two numbered keys provided. Key can be removed from either position. To close the handwheel push and turn the key by 90°. Lock stroke 10 mm. Useful projection of pin from handwheel 8 mm. Keys supplied secured to the handwheel rim.

Inserts:

Galvanised steel insert with smooth through bore (tolerance H10).

(Includes 6 mm keyway).

(4) Black-oxide treated hexagon socket button head screw ISO 7838 for fastening handle.

Lateral handle:

Flush, foldaway revolving handle in handwheel M202 "Euromodel", with hexagonal connection. PA6+GF handle, black RAL 9011. Black-oxide treated internal mechanism. Fixed with black-oxide treated hexagon socket button head screw ISO 7838. Handle cap in grey polyamide (RAL 7035 code 13).

Fixing method:

For fixing systems, or execution of keyways or square holes, please refer to the technical notes attached to the catalogue [page].

Special requests:

- On request and with a minimum of 50 pieces, the inserts can be supplied with the hole d1 with H7 tolerance and black-oxide finish.
- Upon request and for special quantities inserts can be supplied with custom hole diameter d1.
- Upon request and for special quantities inserts can be supplied in different materials/with different coatings.
- Upon request and for special quantities available in the colours indicated in the chart [page].

TWO-SPOKE HANDWHEEL WITH REVOLVING HANDLE AND KEY LOCK

This product type is a variation of our traditional handwheel D207-350. By simply adding a special assembly kit this product adapts to the requirements of a particular market: the mobile shelving market (mobile storage cabinets mounted on a trackway). This handwheel is used to move the shelving along the trackway. A fitted lock or locking piston serves to lock, stop, position the shelving units in certain positions.

TWO-SPOKE HANDWHEEL WITH REVOLVING HANDLE AND KEY LOCK

Materials:

Reinforced and stabilized polyamide. Resistant to oils and greases.

Surface finish:

Satin.

Colour:

Black (RAL 9011).

Central cap:

Grey polyamide (RAL 7035). 13).

Alternative cap colours:

Orange (RAL 2004 code 02).
Blue (RAL 5015 code 07).
Yellow (RAL 1021 code 10).
Red (RAL 3000 code 16).
Green (RAL 6024 code 17).
Black (RAL 9011 code 01).

Clamping lock kit:

(1) PA6+GF hole cover ring. Colour Black (RAL 9011). Push-fit assembly. Removable.
(2) PA6+GF piston holder. Colour Black (RAL 9011). Assembly with two self-tapping, galvanised steel screws, screwdriver head 3.5x30.
(3) Nickel plated lock. Two numbered keys provided. Key can be removed from either position. To close the handwheel push and turn the key by 90°. Lock stroke 10 mm. Useful projection of pin from handwheel rim 8 mm. Keys supplied secured to the handwheel rim.

Inserts:

Galvanised steel insert with smooth through bore (tolerance H10).
(Includes 6 mm keyway).
(4) Black-oxide treated hexagon socket button head screw ISO 7838 for fastening handle.
(9) Hexagonal black-oxide treated steel insert with threaded through hole.

Lateral handle:

Revolving handle M202 "Euromodel", black RAL 9011.
Handle cap in grey polyamide (RAL 7035 code 13).

Fixing method:

For fixing systems, or execution of keyways or square holes, please refer to the technical notes attached to the catalogue [page].

Special requests:

- On request and with a minimum of 50 pieces, the inserts can be supplied with the hole d1 with H7 tolerance and black-oxide finish.
- Upon request and for special quantities inserts can be supplied with custom hole diameter d1.
- Upon request and for special quantities inserts can be supplied in different materials/with different coatings.

D610

EUROMODEL SPOKE HANDWHEEL WITH REVOLVING AND FOLDING HANDLE WITH CENTRAL LOCKING KNOB

PA6

BREVETTATO

This product is an evolution of our series D601-D604. It is designed primarily for use in mobile storage cabinets. The handwheel spokes are shaped with a more modern design, typical of our Euromodel line. We have added a central knob controlling a special mechanism that blocks the rotation of the handwheel (and thus of the storage cabinet door on which it is mounted). The locking system blocks any movement in such a way that the handwheel cannot be removed to force the opening of the door. The sliding doors of the storage cabinet may be safely closed, thus preventing any undesired access or accidental movement. The product is covered by two patents (locking mechanism and anti-removal system).

BREVETTATO

EUROMODEL SPOKE HANDWHEEL WITH REVOLVING AND FOLDING HANDLE WITH CENTRAL LOCKING KNOB

Materials:

Reinforced and stabilized polyamide. Resistant to oils and greases.

Surface finish:

Satin.

Colour:

Black (RAL 9011).

Inserts:

- (2) Green polyamide button (RAL 6024).
- (3) Grooved sliding guide to position the knob, galvanised steel.
- (4) Connection flange for knob, springs, safety pin, and locking pins. Reinforced and stabilized polyamide.
- (5) Harmonic stainless steel retaining spring (AISI 302).
- (6) Galvanized steel locking pin with hexagonal seat and retractable mechanism to facilitate the insertion of the pin into the hole of the structure.
- (7) Galvanised steel insert with smooth through bore (tolerance H10) and key.
- (8) Fastening thrust pin M8x12, in black-oxide treated steel, with hexagonal seat and fixing cone end (DIN 914 - UNI 5927).
- (9) Galvanised steel pin, connected to the knob through the central flange. Once lowered, the knob moves in front of the handwheel grub screw. This way it is impossible to insert an Allen wrench to loosen the grub screw and remove the handwheel from the cabinet. It is a safety function.

Central knob:

- (1) Central reinforced polyamide knob. Resistant to oils and greases.

Lateral handle:

Flush, foldaway revolving handle in handwheel M202 "Euromodel", with hexagonal connection. PA6+GF handle, black RAL 9011. Black-oxide treated internal mechanism. Fixed with black-oxide treated hexagon socket button head screw ISO 7838. Handle cap in green polyamide (RAL 6023 code 17).

Special requests:

- Upon request and for special quantities inserts can be supplied with custom hole diameter d1.
- Upon request and for special quantities inserts can be supplied in different materials/with different coatings.

This product works in a rather simple way: pulling the central knob upwards lifts a connection flange that raises both locking pins. After coming out of the metal plate of the mobile shelf and retracting inside the handwheel, these pins allow the operator to rotate the handwheel and consequently move the entire shelf. When in raised position, the knob hides both side caps covering the top of the guiding pins. When about to reach the desired shelf position, push the knob towards the inside of the handwheel: this action will lower the connection flange, allowing one of the locking pins to protrude thus facilitating the insertion of the pins in the holes of the metal plate. Also, the locking pin features a spring retaining mechanism, so that if the knob is pressed when the pin is not in the correct position yet, the pin will retract smoothly. The spring keeps it pressed, and as soon as the hole aligns with the pin, the spring pushes it in, thus locking the handwheel. In this position, both green buttons come out of the knob, making it easier to identify the correct locking position. The safety pin too follows the connection flange, so it lowers and covers the hole containing the thrust pin that fastens the handwheel to the pin of the shelf. This way it is impossible to insert a tool to loosen the grub screw. This option is only effective if there is a lock that blocks the movement of the knob.

ALUMINIUM SOLID HANDWHEEL WITH REVOLVING HANDLE WITH CENTRAL LOCKING KNOB

Materials:

Aluminium.

Surface finish:

Fine turned finish in all its parts, except the central part (sandblasted).

Colour:

Natural nickel.

Central knob:

(1) Central reinforced polyamide knob. Resistant to oils and greases.

Inserts:

- (2) Green polyamide button (RAL 6024).
- (3) Grooved sliding guide to position the knob, galvanised steel.
- (4) Connection flange for knob, springs, safety pin, and locking pins. Reinforced and stabilized polyamide.
- (5) Harmonic stainless steel retaining spring (AISI 302).
- (6) Galvanized steel locking pin with hexagonal seat and retractable mechanism to facilitate the insertion of the pin into the hole of the structure.
- (7) Fastening thrust pin M8x12, in black-oxide treated steel, with hexagonal seat and fixing cone end (DIN 914 - UNI 5927).
- (8) Nickel plated lock. Two numbered keys provided. Key can be removed from either position. To block the handwheel, push down the knob and turn the key by 90°. Lock stroke 10 mm. The keys are supplied attached to the knob.

Lateral handle:

Revolving handle M202 "Euromodel", in reinforced black polyamide RAL 9011. Fastening by galvanized DIN screw. Handle cap in green polyamide (RAL 6024 code 17). [page 513].

Special requests:

- Upon request and for special quantities inserts can be supplied with custom hole diameter d1.

04

This product works in a rather simple way: pulling the central knob upwards lifts a connection flange that raises both locking pins. After coming out of the metal plate of the mobile shelf and retracting inside the handwheel, these pins allow the operator to rotate the handwheel and consequently move the entire shelf. When in raised position, the knob hides both side caps covering the top of the guiding pins. When about to reach the desired shelf position, push the knob towards the inside of the handwheel: this action will lower the connection flange, allowing one of the locking pins to protrude thus facilitating the insertion of the pins in the holes of the metal plate. Also, the locking pin features a spring retaining mechanism, so that if the knob is pressed when the pin is not in the correct position yet, the pin will retract smoothly. The spring keeps it pressed, and as soon as the hole aligns with the pin, the spring pushes it in, thus locking the handwheel. In this position, both green buttons come out of the knob, making it easier to identify the correct locking position. The safety pin too follows the connection flange, so it lowers and covers the hole containing the thrust pin that fastens the handwheel to the pin of the shelf. This way it is impossible to insert a tool to loosen the grub screw. If you turn the supplied key by 90° from this position, and then extract it, it will no longer be possible to lift the knob and consequently unlock the movement of the handwheel and of the shelf.
